Education and Certifications

Bachelor of Arts in Geography

Western University, London, ON

- Major in Physical Geography and the Environment. Key coursework: Introductory GIS, Remote Sensing, Transportation Geography & GIS, GIS II, Intro to Urban Development, Conservation and Development, Geomorphology, Paleolimnology, Statistics, River Morphology.

Certification in Geographic Information Systems

Western University, London, ON

- Achieved concurrently with my program module

Position Related Experience

Flood Risk Assessment of Western University Campus

March 2023

Western University

- Performed an analysis of areas at risk of flooding based on different water levels and elevations across campus to determine safe high-risk zones and regions.
- Displayed through a 3D depiction of the campus displaying 360° views covering various slopes, depths and angles where water could be found in the event of a flood. Analysis done using ArcGIS Pro.

Westminster Ponds Water Content and Health Analysis (London, ON)

October 2022

Conducted with Western University, Paleolimnology

- Worked as a team of 5 to gather sediment cores to determine the relative age, health and vegetation present at different periods in the pond's history using the 'Age-Depth Theory'
- Measured and calculated the pond pH values, oxygen contents and salinity using a DO meter to add to the analysis
- Presented our findings in the form of an educational poster board displayed at the Westminster Ponds Centre for Tourism

Mapping and Creating a Composite of the Medway River System

October 2022

Conducted with Western University, River Morphology

- Our research group of 4 people were tasked with calculating Medway River's water discharge, velocity, depth and gradient using a variety of instruments and meters
- Communication and teamwork were essential for accurate results to be represented

Land Use Representation Analysis Using ArcGIS

February 2024

Conducted with Western University, GIS II

- Individually selected specific criteria based on various colour schemes and combinations to depict certain land use areas across London Ontario, accurately
- Various satellite open data and imagery were needed to maximize efficiency and certainty

Geospatial Experience

Program

- Esri products (ArcGIS Pro, ArcGIS Online, ArcMap, ArcCatalog), QGIS, Regard 3D

Data Used for Analysis

- Satellite Imagery
- Raster and vector datasets
- LiDAR

Suitable White Rhino Habitats in South Africa Assessment

March 2023

Western University

- Carefully determined suitable habitats and locations of the endangered White Rhino species in South Africa using various classification tools
 - These include the radius to previous poaching events, access to bodies of water, elevation, biomes, and topographical data. Analysis done using ArcGIS Pro/

Vehicle Collision Hotspots in the Downtown Toronto Area

April 2024

Western University

- Displayed all Fatal and Non-Fatal vehicle crashes using open data from 2006-2021. Analyzed the time of day and location to determine general hotspots that commuters can potentially avoid. Analysis created using ArcGIS Pro

Proposal for New High School location in London, ON

February 2022

Western University

- Utilized census data and age groups per capita to determine regions of London with the most youth aged 14-18 years old, where a high school would be suitable. Analysis created using ArcGIS Pro

Analysis of Affected Streets from a Tornado in Kansas

March 2022

Western University

- Gathered and displayed data from open-source databases regarding the destruction and path of a tornado in a residential area in Kansas.
- Displayed a tornado buffer to indicate safe zones within the residential neighbourhoods

Skills and Interests

- Bilingual (French)
- Hockey
- Exploring nature and being outside
- Teaching and sharing my passion with others
- Outreach projects
 - *Let's Build Them a School*
 - Raised over \$26,000 over the span of 3 years

Digital and Media Tools

- Microsoft Excel, PowerPoint, Word, OneNote and Outlook
- Canva
- Wix
- ArcGIS
- CapCut
- Various Social Media (Instagram, Facebook, X)
